MADE FOR LIVING

# WE'RE PASSIONATE ABOUT ARTIFICIAL GRASS

We have been producing artificial grass for 30 years.

All our products are designed, manufactured and distributed by us.

We have produced in excess of 50 million m<sup>2</sup> of artificial grass globally.

## HERE ARE A FEW THINGS YOU MAY NOT KNOW ABOUT US:

- ▣ We're fast becoming the No.1 choice for artificial grass in the UK.
- ▣ We design, manufacture and distribute all our own products.
- ▣ We've been doing this for over 30 years.
- ▣ We're a global brand, available in 20 countries.
- ▣ We're the ONLY UK artificial grass brand that can boast all of the above.

## BIG ENOUGH TO BE GLOBAL, SMALL ENOUGH TO CARE

Artificial grass isn't meant to grow, but we are. Our ongoing success is because we're sticklers for controlling quality and innovation. All our products are designed, manufactured and distributed by us giving us control of the full process. In the UK we operate from a huge shiny warehouse on the edge of the New Forest. It has over 40,000m<sup>2</sup> of stock at any one time, not to mention a display area, showing off all our latest products.

We also have some super hi-tech machines that are eye-wateringly accurate – measuring, cutting and packing your order so it'll reach you in tip-top condition. Just to ensure this, we also deliver everything ourselves so there's nothing for you to worry about.

So whatever you want, it can be ordered and delivered to your door in three working days

*"I've looked at a lot of artificial grass and I'm really impressed with Namgrass. It's hard wearing, yet soft and has a great natural look".*

Recommended by Sarah Beeney, Property Expert

*"We are delighted to have Namgrass supply our artificial grass on Soccer AM. The team have been first class in delivering this amazing surface and we are over the moon with the finished look and quality of the grass. It has been an absolute pleasure to deal with everyone at Namgrass".*

Darius Merriman, Sky 'Soccer AM' Producer

## LIKE REAL GRASS, ONLY BETTER.

We'd all love an immaculately manicured lawn. But unless you've got a full-time gardener, it's not going to happen. And if you have kids or pets, forget it. Fear not, with Namgrass your lawn's always perfect, no matter what the kids, pets or weather have been up to. Handy if you want to throw an impromptu garden party.

- ☑ A perfect-looking lawn every day of the year.
- ☑ Look and feels like real grass.
- ☑ No more fussing, digging or mowing.
- ☑ Kids can play without creating a mud bath.
- ☑ Made for pets and easy to clean.
- ☑ Great if you're allergic to grass pollen.
- ☑ Garden is always perfect for entertaining or relaxing.

# EU CERTIFICATE

## MANUFACTURED IN BELGIUM

We are proud of our heritage and confident that our artificial grass products are of the highest standard.

We follow a strict research and development, manufacturing and distribution process to ensure the grass you receive is in top condition.

At Namgrass we are experts in flooring and originally started off as a manufacturer of carpet products then expanding into the artificial grass market.

To keep up with the demand, in 2008, Namgrass built a brand new artificial grass factory with its surface exceeding more than 50,000 m<sup>2</sup>.

## 10 Year Warranty

Project		Product			
Company		Date of issue	DD	MM	YYYY

NAMGRASS guarantees the synthetic grass carpet for a period of 10 years, providing that the prescribed maintenance is carried out. (See maintenance manual.)

### What's included in this warranty:

- ✓ Abnormal wear.
- ✓ Abnormal ageing.
- ✓ Resistance of the carpet against normal weather influences.
- ✓ Resistance of the carpet against rotting under normal conditions.

The NAMGRASS warranty shall be valid, provided that the following conditions have been respected:

- ✓ The surface is only used for the application that it is designed for and not used for different purposes in general.
- ✓ The surface has been used in accordance with the instructions for use (appropriate footwear (no spikes), not used during frost <-15°C etc.).
- ✓ The infill is in accordance with the standard infill procedure (no post fibrillation, use of rounded and siliceous sand, etc.).
- ✓ The secondary products (glues, adhesive tapes, sand, rubber granules, etc.) are used according to the recommendations of NAMGRASS.
- ✓ The cleaning and maintenance of the artificial grass carpet is in accordance with the maintenance manual of NAMGRASS.

### A claim cannot be made under the warranty if:

- ✗ The surface has been subject to vandalism, chemical attack, fire, natural disasters, mechanical fibrillation etc.
- ✗ Damages to the artificial grass carpet are due to improper design or installation of the sub-base of the area.
- ✗ Wear or abrasion of the artificial grass carpet are caused by an inadequate sub base.
- ✗ NAMGRASS will not, in any case, be held responsible for any chemical reaction to the fibres caused by infill materials.
- ! The warranty only refers to the material damage to the artificial grass carpet itself, and relates exclusively to possible repair or partial or complete replacement of the artificial grass carpet, as required by the circumstances.
- ! Any product repairs or replacements performed under the terms of this warranty shall not lead to any extension whatsoever of the warranty.

## 10 YEAR WARRANTY

Because we make all of our own products, we offer our very own warranty across all our grasses. The main points our warranty covers are UV stabilisation (no fade) and the integrity of our products.

## TOP INSTALLERS

We have a nationwide network of Namgrass Approved Installers who can fit your artificial grass, Namgrass style - with precision, care and an eye for design.

## LOCAL STOCKISTS

We have over 600 stockists of Namgrass nationwide. Use our Stockist finder on our website to locate one near you.

## QUALITY TO BE PROUD OF

The quality of specific plastics used in artificial grass varies across the world. All our artificial products are made using C6 materials – a linear low density polyethylene which uses Hexene as a binding material. It's been proven that Chinese manufacturers have been using C4 materials which could be recycled polyethylene with lower material quality and UV stabilisers - often used to reduce costs.

The advantages of C6 against C4 are:

- ☑ Higher tensile strength which gives you a lower tendency to fibrillation/split.
- ☑ Lower elongation at break which gives you a higher elastic recovery.

- ☑ Less sensitive to high temperature.
- ☑ Softer and more UV stable.

All our products have been designed with a special yarn profile to improve the resilience of the fibres.

We don't compromise the quality of our products for cheaper alternatives often used abroad, for example our yarn is 100% free of heavy metals, which is not the case with Chinese products.

Our yarn also has the maximum amount of UV stabilisator (10.000 ppm), whilst Chinese products have a maximum of 3.000 ppm and even some European companies 5.000-6.000 ppm
